- |          |                            |                                |
|----------|----------------------------|--------------------------------|
| • Java   | • Javascript               | • Problem Solving              |
| • HTML   | • React                    | • Strong interpersonal skills  |
| • Python | • Critical thinking skills | • Proactive and self-motivated |
- 

## PROJECTS

### Coinsphere - A Cryptocurrency App

- **Frontend:** React, Redux (for state management), JavaScript (ES6+), CSS, HTML5.
- **APIs:** Integrated with Rapid APIs and CoinRanking APIs to fetch live data.
- **Real-time Cryptocurrency Data:** Implemented live price updates and detailed cryptocurrency information.
- **State Management:** Utilized Redux for managing global state, handling complex user interactions, and optimizing performance.
- **Responsive Design:** Ensured compatibility across devices using CSS Flexbox/Grid and media queries.

### SoundShere - A Music Streaming Site

- Developed SoundShere, a responsive and user-friendly music streaming platform with seamless audio playback and curated playlists.
- Developed SoundShere, a responsive and user-friendly music streaming platform using HTML5, CSS3, JavaScript, and Bootstrap to ensure seamless design and functionality.

### Expense Tracker Website

- Developed a dynamic expense tracker website using HTML, CSS, JavaScript, and Bootstrap, allowing users to efficiently manage their expenses and income.
- Implemented features for adding, editing, and deleting transactions, along with a real-time balance calculator to display total income, expenses, and net balance.
- Integrated a toggle functionality to manage both income and expenses, providing users with an intuitive interface for budgeting.
