

Rishabh Kumar

+91 9915285862 | [EMAIL](#) | [LINKEDIN](#) | [PORTFOLIO](#) | [GITHUB](#) | #130 Palm City, Shivalik City, Kharar, Mohali, India

Profile

Full-Stack Developer proficient in **JavaScript, React, Node.js, Express.js, MongoDB, and MySQL**, with expertise in building **scalable, responsive, and user-friendly applications**. Skilled in **HTML 5, CSS, TailwindCSS**, and **RESTful APIs**, with a strong foundation in algorithms, **data structures**, and software engineering principles. Quick learner with a passion for **problem-solving** and **efficient development**.

Skills

- **PROGRAMMING LANGUAGES:** C, C++, JAVA, Javascript, Typescript, Python
- **FRONTEND:** HTML 5, CSS, TailwindCSS, React.js, Redux
- **BACKEND:** Node.js, Express JS, RESTful API, Cloudinary, JWT Authentication, Socket.io
- **DATABASE:** MySQL, MongoDB
- **AI & MACHINE LEARNING:** Pandas, Numpy, Matplotlib, TensorFlow, OpenCV, Mediapipe
- **VERSION CONTROL:** Git, Github
- **INTERPERSONAL SKILLS:** Effective Communication, Fast Learner, Adaptability

Projects

NextHire – An Online Job Portal | [GITHUB](#)

- Developed a scalable **job portal platform** that connects job seekers and recruiters, streamlining the hiring process with job posting, applications, and automated email notifications.
- Integrated **Redux** for state management, **Nodemailer with SMTP** for openings-related emails, and **Cloudinary** for handling user-uploaded resumes and recruiter logos.
- User authentication with role-based dashboards, **job posting & application tracking**, responsive UI, and **search/filter options** for job listings.

***Tech Stack** – React.js, Express.js, MongoDB, CSS, Nodemailer, Cloudinary, Redux*

TogethrTask – Collaborative Task Management Web App | [GITHUB](#)

- Built a **real-time collaborative task management application** enabling users to create, assign, and manage tasks with seamless synchronization across team members.
- Implemented **Socket.io for live task updates** and notifications, ensuring instant visibility of changes without manual refresh.

***Tech Stack** - React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Socket.io, Nodemailer*

Workout Trainer - Computer Vision & Exercise Posture Analysis | [GITHUB](#)

- Developed a **real-time workout posture tracking system** using **MediaPipe Pose** and **OpenCV** to analyze exercises like **curls, squats, and lateral raises** from video input, providing feedback on form accuracy and rep counting.
- Implemented angle calculations for key joints, form validation, calorie estimation per rep, and progress visualization with an interactive UI including pause/resume and frame navigation features.

***Tech Stack** - Python, OpenCV, MediaPipe, NumPy*

Certifications

Oracle Cloud Infrastructure: Generative AI Professional | [LINK](#)

Demonstrated expertise in designing, deploying, and managing generative AI solutions using Oracle Cloud Infrastructure (OCI)

Education

BE in CSE with a specialization in IoT | Chandigarh University | (2022-2026)
